

# Output 05: Europe-My Home Europe through the eyes of children

Through this output “Europe-My Home”, we :

- improved knowledge of the importance of a United Europe to promote creativity
- exchanged good practice, encourage the best use of results, and to create innovative, meaningful products
- promoted equality between men and women and contribute to the fight against all forms of discrimination based on gender, disability

This output is been integrated into our educational program.

When performing it, we created a learning environment, which promoted active learning and, more specifically, practical learning. Our focus was on learning from each other how to use innovative and interactive methods to work .

This output “Europe My Home” involved the active participation of everybody, whilst working in a team

We had talks, discussions, play time, working in small groups, drawing and creative workshops.

All the kids that are in grade 4 and 5 (primary School) made drawings to describe Europe seen as our big home.

They studied the currency, The European Parliament, the Map, Celebrating (European Day)...then we put all their drawings as bricks of a big European home.

Children also sang the "Beethoven's Ode to Joy" <https://youtu.be/DbI8vyU1H-g>

# Preparing the exhibition in our school

Europe through  
the  
eyes of children

EUROPE MY HOME

Kids are putting drawings made by their classmates on the walls of the house

Today we finished ... we will get back to work tomorrow!

2<sup>nd</sup> day... get back to work!

...and also  
Math skills  
to create a  
pattern  
curtain for  
windows
